SUBJECT: Circular 175: Request for Authorization to Amend the Air Transport Services Arrangement between the United States and Indonesia.

OCT 11 1960

Discussion

In accordance with Department Circular 175, authorization is requested to conclude with the Government of Indonesia an amendment of the bilateral air transport services arrangement in order to expand United States commercial air services to that country.

An exchange of notes (copy attached) was effected with the Government of Indonesia on February 2 and March 2, 1959 providing for service at Djakarta by United States commercial carriers on a provisional basis. The traffic rights were limited to one year's duration from April 1, 1959, and annual extensions upon United States Government request were envisaged; an extension for a second year was made in 1960. No commercial rights in United States territory for Indonesian carriers were involved. This exchange is the only bilateral instrument governing our commercial aviation relations with Indonesia.

Pan American World Airways operates a weekly service with jet aircraft. It has now proposed a schedule effective December 1 calling for two jet flights a week to and from Djakarta. In order to put the expanded schedule into effect, amendment of the bilateral arrangement would appear necessary, since the present exchange of notes specifies that only a once-weekly United States service will be permitted. The Department, with the concurrence of the Civil Aeronautics Board, has authorized the Embassy at Djakarta to cooperate with the PAA office there in order to carry out the most effective approach, in line with overall United States interests, to obtain the Indonesian Government's agreement to PAA's proposed schedule change. The Embassy has subsequently reported that a formal note is necessary for this purpose and is awaiting the Department's approval to proceed along these lines.

SUBJECT : US-Indonesia Air Transport Relations						
REF : Embassy's telegram 715, October 19, 1962						
<p>The Department realized in sending its A-41 of September 25, 1962, that the arguments set forth therein might not carry weight with the Indonesian Government. The purpose of the presentation was not so much to retreat from the previous US position on possible US/Indonesian air transport discussions as to make Indonesia aware of the difficulties which would be faced if it pursued its interest in attempting to obtain air transport rights from the US.</p> <p>The Department believes that it would be desirable to take some action on the matter. The US has, in effect, committed itself to discuss the matter, and the initiative at the moment lies with the US. Furthermore, the Department agrees that to delay any response will place the US in an awkward position next March when the question of the renewal of PAA's operating authority again requires action.</p> <p>Accordingly, it is suggested that the Embassy advise the Indonesian authorities, preferably orally, that the discussions which have so far been held and the United States' own analysis of the matter have revealed issues more complex and fundamental than originally foreseen. The US, therefore, suggests that if Indonesia desires to pursue the matter, it request negotiations between the civil aeronautical authorities of the two countries. The US would be glad to make arrangements for such negotiations at a mutually convenient time. The US would find it difficult to send a delegation to Djakarta at the present time because those responsible for aviation negotiations are currently closely involved with formulating recommendations with regard to the international US civil aviation policy study to which considerable importance is attached. Moreover, the results of this study may have a bearing on several other unresolved issues, such as the present one. The US would, of course, be pleased to receive an Indonesian delegation in Washington.</p>

ISKANDAR MAY VERY WELL DESIRE LEAD NEGOTIATING TEAM (AT LEAST FOR OPENING DISCUSSIONS). I REALIZE TIMING HIS VISIT TO MEET BOTH FAA ADMINISTRATOR AND CIVIL AIR NEGOTIATION SCHEDULES MAY BE DIFFICULT.
